CORPORATE **PROFILE**

About us

Company Overview

Bullion Metallics International Group (Private) Limited ("BMIG") is a Zimbabwean-based integrated precious metals and mineral resources company specializing in the sourcing, acquisition, processing, refining, and international export of gold and other strategic minerals.

The Company operates through a vertically integrated business model that spans the entire mineral value chain, from mineral exploration and mine development to gold procurement, toll refining, and international gold bullion trading.

Leveraging strategic industry partnerships and established commercial frameworks, Bullion Metallica International Group has positioned itself as a reliable and credible participant within Zimbabwe's precious metals sector, facilitating the efficient movement of high-value mineral commodities into international markets while adhering to applicable regulatory, compliance, and responsible sourcing requirements.

The Company maintains strategic contractual arrangements for the export of investment-grade gold bullion through its Gold Supply and Purchase Agreement with Fidelity Gold Refinery, Zimbabwe's sole authorized gold refining and export institution.

Through this framework, BMIG provides secure, transparent, and scalable precious metals solutions to institutional buyers, commodity traders, refineries, financial institutions, and international off-take partners.

Our philosophy

Our VISION

To become Africa's leading integrated precious metals enterprise and a globally trusted partner in gold mining, refining, mineral exploration, and bullion trading by building sustainable supply chains and delivering world-class solutions to the international commodities market.

Our MISSION

To become a globally respected and financially resilient precious metals enterprise by delivering integrated gold mining, refining, procurement, and export solutions that create sustainable value for our off-takers, customers, shareholders, mining partners, and communities.

We are committed to deploying advanced technologies, maintaining the highest standards of corporate governance and compliance, and establishing strategic international partnerships that enhance Zimbabwe's contribution to the global precious metals supply chain while generating long-term economic and commercial growth.

Our Cores Values

INTEGRITY

Conducting business with transparency, accountability, and ethical governance.

EXCELLENCE

Pursuing operational efficiency and continuous improvement in all business activities

INNOVATION

Leveraging advanced technologies and data-driven solutions to create competitive advantage.

PARTNERSHIP

Building long-term relationships with producers, investors, institutions, and international customers.

CORE VALUES

SUSTAINABILITY

Promoting responsible mining practices and creating lasting economic value for stakeholders and communities.

COMMERCIAL DISCIPLINE

Maintaining prudent financial management, robust risk controls, and sustainable growth strategies that support long-term bankability and institutional confidence.

Products & Services

Gold Bullion Export

BMIG facilitates the export of investment-grade 999.9% refined gold bullion through its contractual arrangement with Fidelity Gold Refinery. The Company provides end-to-end bullion supply solutions, including gold sourcing, export administration, logistics coordination, regulatory compliance, and long-term off-take agreements for institutional and international buyers.

Gold Toll Refining & Export

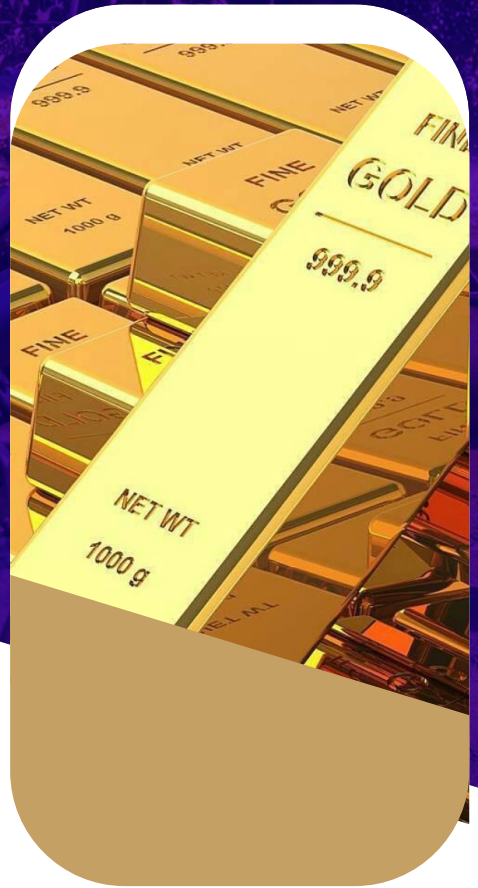

BMIG offers professional gold toll refining and export solutions, enabling gold producers and precious metals owners to refine gold dore through its SPA with Fidelity Gold Refinery into investment-grade bullion for international markets. Services include assaying, refining management, secure custody, export logistics, compliance support, and international market access.

Local Gold Procurement

BMIG procures and aggregates gold from licensed miners, artisanal miners, mining companies, and registered producers across Zimbabwe. Through its nationwide sourcing network, the Company delivers secure procurement, responsible sourcing, supply chain management, and export solutions to support large-scale international supply commitments.

Products & Services

Mineral Exploration & Geological Services

BMIG provides geological exploration, mineral intelligence, and technical consultancy using advanced surveying, geospatial technologies, and its proprietary Geo-Sensing Mineral Intelligence Database. These services support mineral discovery, resource evaluation, and investment decision-making for mining and exploration projects.

Gold Mining & Strategic Investments

BMIG partners with mining operations through strategic investments, mine development, equipment financing, and technical support to enhance production efficiency and long-term resource development. Its vertically integrated model strengthens supply security while maximizing value across the precious metals value chain.

The Team

Shingai Levison King-Group Chief Executive Officer & President

Eng. Levison King is the **Co-Founding Director** of **Bullion Metallics International Group** and a major shareholder in the Group. He provides strategic leadership across the Group's mining, commodities, and international trade operations. A qualified Network Engineer with postgraduate qualifications in Financial Engineering, he combines strong technical expertise with advanced financial and commercial acumen.

With over seven years of experience in the gold sector, Shingai has developed extensive expertise in gold trading, working closely with gold producers across Zimbabwe while supporting the industry through technology and business advisory services. He also possesses significant experience in structuring international trade finance solutions, collaborating with international financial institutions to facilitate the use of trade finance instruments for cross-border commodity transactions. His leadership is focused on driving sustainable growth, strategic partnerships, operational excellence, and positioning the Group as a trusted participant in the global precious metals industry.

Gerald Saidi (Esq.) - Group Company Secretary

Counsel Saidi is the **Co-Founding Director**, second major shareholder, and **Group Company Secretary** of **Bullion Metallics International Group**. He provides strategic leadership across all legal, corporate governance, and compliance functions of the Group, ensuring adherence to applicable legal and regulatory requirements. An experienced corporate and commercial lawyer, he specializes in corporate governance, regulatory compliance, contract negotiation, cross-border transactions, and investment facilitation. Gerald plays a pivotal role in strengthening the Group's governance framework, supporting international partnerships, and promoting transparency, accountability, and sustainable corporate practices.

Charles Maposa - Group Director of International Trade

Charles Maposa is a strategic entrepreneur and business development executive with extensive experience across **Africa** and **Europe**. He specializes in international trade, resource mobilization, investment facilitation, and the development of businesses in the mining, construction, and commodities sectors. He also possesses extensive knowledge of dealing with government institutions, having worked closely with various governments across the African continent and Europe. With a strong track record in building strategic partnerships and driving cross-border commercial growth, Charles plays a key role in advancing the Group's international business development and investment objectives.
